## DEMOCRATS WILL WIN, PRESIDENT TELLS COMMITTEE

Republicans Have No Issue for Next Year, Except the Tariff, Wilson Declares.

Washington, Dec. 8.—President Wilson told members of the Democratic national committee at a luncheon in the state dining room of the White house today that the Republicans had no issue for the next campaign except the tariff and that democracy was certain to win.

"Our constructive work has started an irresistible movement which cannot be stopped," he declared. "Any one who tells you otherwise is talking through his hat."

Mr. Wilson said nothing to indicate whether he would again be a candidate for the presidency.

Through his entire talk, which dealt with subjects ranging from Democratic chances of victory to features of the "isolated" life of a chief executive, the president was informal. Taking his place at the head of the table he thrust his hands into his pockets, cast aside what he termed his "dress parade" language and talked freely and confidentially.

### Committeemen Buoyant

Democrats of all factions greeted his remarks enthusiastically. They left the white house in buoyant spirits, declaring that his optimism had inspired them with new confidence. It was the first time committeemen said, that the president had received

as a whole in the White house. They expressed regrets that the text of the president's speech would not be given out, as they regarded it as a vigorous campaign argument.

### Ads of the Many Trade Festival Firms—Scores of Stores Represented.

The Big Co-operative Fare Refund Sale being promoted by the merchants offers opportunities to people living outside of Monett, such as they have never had before. With the plan as outlined it will be possible for the people living within a radius of 75 miles of this city to come to Monett to trade without their car fare costing them a single penny.

This will be, without a doubt, the greatest trade event ever held anywhere in this section. Considerable interest has already been aroused in the towns within a radius of Monett shopping territory, and from all report the week of December 25th will be one of the busiest periods ever witnessed in the retail circles of this city.

Every merchant represented in this big trading event is making elaborate preparations in practically every department of his store.

Times, published in connection with the Co-operative Fare Refund Sale, will be issued Thursday and will be well worth while waiting for and preserving.

It will contain the advertisements of merchants who will offer special inducements for the week, and there will be more splendid values enumerated in the advertisements than ever in the city's history. This is but natural, as never before has such a gigantic enterprise, undertaken for the benefit of out-of-town buyers, been attempted in this section of the state. And not only will they have the opportunity of making extensive purchases at reasonable prices, but they will have their railroad fares refunded.

Its big wheels ripped boards off three cars and did damage amounting to \$1,000. Walter Neff, the tractor engineer, was thrown from his seat and slightly injured.

### LAUNCH NATION DRY FIGHT

Hopes to Make the Capital an Example to the Rest of the Country—Is a Drastic Measure.

Washington, Dec. 8.—The Anti-Saloon League of America, through Senator Morris Sheppard of Texas, today launched its fight for national prohibition. Senator Sheppard introduced in the Senate a bill making the District of Columbia "dry" territory after November 1, 1916. He will follow this with a bill later in the session providing national prohibition.

The bill placing under the ban liquor in Washington and the District is most drastic and provides not only heavy fines, but prison terms for violation of the prohibitory law. It not only would prohibit the sale of intoxicants in hotels and clubs, but prohibit its transportation into the district by common carriers. It also prohibits drinking in public thoroughfares, on street cars or other public conveyances, including railroad trains and makes it an offense to be intoxicated on streets, in street cars, on railroad trains or any public gathering or to disturb the peace of any person while intoxicated anywhere.

Prohibition leaders predict that Washington will be "dry" a year from November 1, last. They plan to make the national capital an object lesson to the rest of the country. They say once the saloon is banished from Washington they will have taken a long step toward national prohibition. Senator Sheppard expresses the belief that he will be successful in bringing about the passage of his bill, not only in the Senate, but in the House.
